PROFESSIONAL SUMMARY

Motivated IT Executive and Software Developer with 1+ years of professional experience in IT operations, full-stack web development, and software development. Proficient in multiple programming languages, database management, and system administration. Passionate about building practical software solutions that solve real-world problems, with a track record of independently developing **six productivity tools** including a GUI-based automated attendance scraper serving ~1338 employees.

WORK EXPERIENCE

IT Executive — Gaco Pharmaceuticals Ltd.

Current | Tejgaon, Dhaka

- Manage and maintain IT infrastructure, hardware, and software systems across the organization.
- Provide technical support and troubleshooting to staff for hardware, software, and network issues.
- Oversee day-to-day IT operations including system monitoring and user account management.
- Assist in implementing IT policies and ensuring data security and system integrity.
- Coordinate with vendors for procurement and maintenance of IT equipment and software licenses.
- Independently developed six internal software tools to automate and streamline operations.

SOFTWARE PROJECTS

1. Invoice Generator

A professional invoicing application for creating, customizing, and exporting invoices as PDFs. Features client management, itemized billing, tax calculation, and invoice history.

C# • PDF Export • MySQL • OOP

■ github.com/kabir1922/invoice_app_pro

2. CSV / Excel Cleaner

A data cleaning tool that processes CSV and Excel files — removes duplicates, fixes formatting issues, and standardizes data for analysis-ready output.

Python • C# • Data Processing

■ github.com/kabir1922/csv-excel-cleaner

3. PDF Merger & Splitter

A desktop utility for merging multiple PDFs into one or splitting a PDF into separate files, providing an offline alternative to third-party online tools.

Python • C# • PDF

■ github.com/kabir1922/pdf-merger-splitter

4. Image to PDF Converter

Batch-converts image files (JPG, PNG, etc.) into well-formatted PDF documents with custom page layout and professional output quality.

Python • Image Processing • PDF

■ github.com/kabir1922/image-to-PDF-converter

5. Bulk File Renamer

A desktop utility for batch-renaming files using custom patterns, prefixes, suffixes, and sequential numbering to reduce manual effort.

Python • C# • Automation

■ github.com/kabir1922/bulk-renamer

6. Attendance Scraper

An automated attendance data collector with a professional desktop GUI. Scrapes records for ~1338 employees from a web portal with live stats, pause/resume controls, and Excel export. Packaged as a standalone Windows .exe — no Python needed on target machines.

[Python](#) • [Selenium](#) • [Tkinter](#) • [BeautifulSoup](#) • [PyInstaller](#)

TECHNICAL SKILLS

Programming Languages	C, C++, C#, Python, JavaScript, Java, HTML5, CSS3
Web Development	Full-Stack Development, WordPress, Responsive Design, Bootstrap, jQuery
Databases	MySQL, PostgreSQL, MongoDB
Automation & Scraping	Selenium, BeautifulSoup, Web Scraping, PyInstaller
Version Control	Git, GitHub — github.com/kabir1922
Operating Systems	Windows 7 / 10 / 11, Linux
Development Tools	Visual Studio, Visual Studio Code, VS Community
Office Software	Microsoft Office (Word, Excel, PowerPoint, Outlook)
Design & 3D	Adobe Photoshop, Blender (3D Animation)
Networking & IT	Network Troubleshooting, Hardware Maintenance, IT Support, System Administration

EDUCATION

B.Sc. in Information and Communications Engineering East West University, Dhaka	2020
Higher Secondary Certificate (HSC) — Science Joypurhat Government College	2015
Secondary School Certificate (SSC) — Science R.B. Government School, Joypurhat	2011

LANGUAGES

- Bengali — Native
- English — Professional Proficiency

HOBBIES & INTERESTS

- Software & tool development — building personal productivity applications.
- 3D animation and graphic design using Blender and Photoshop.
- Exploring new technologies, programming languages, and open-source projects.
- Reading about cybersecurity, networking, and emerging tech trends.
